DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 1. Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Julin (U. S Patent Number 6,212,372).

Regarding claims 1,2,6,7,8,11, 12, 13, Julin discloses essentially all the claimed invention as set fourth in the instant application, further Julin discloses method in mobile telephone systems in which a subscriber identity module (SIM) is allocated at least two identities which are selectively activated by the user. In addition Julin discloses a mobile system having mobile terminals (MS) connected to a mobile switching center via a air interface, the mobile being controlled by a SIM the SIM having an IMSI associated with it disclosed in column 4 lines 33-50, wherein the SIM contains a calculation rule (which reads on information disclosed in column 2, lines 17-21) for calculating and generating from the stored identity at least one further identity (which reads on information disclosed in column 2, lines 25-31) the identities generated by the calculation rule being associated accordingly in the mobile switching center, as exhibited in figure 1, However Julin fails to specifilly discloses the use of a plurality of mobiles.

Regarding a plurality of mobiles the examiner takes official notice that having multiple mobile terminals in a mobile system is well known.

Application/Control Number: 09/485,679

Art Unit: 2681

Therefore, it would have been obvious to one of ordinary skill at the time of the invention to modify the method in mobile telephone systems in which a subscriber identity module (SIM) is allocated at least two identities which are selectively activated by the user of Julin to allow for a network of mobiles to communicate with each other.

Regarding claims 3-5,9,10, Julin discloses everything claimed, as applied above (see claim 1) additionally, Julin discloses the new identity is affected by a user entry via a keyboard or a menu as disclosed in column 2 lines 18-30 and 4 lines 60-65.

Regarding claims 14-16, Julin discloses method in mobile telephone systems in which a subscriber identity module (SIM) is allocated at least two identities which are selectively activated by the user. In addition Julin discloses a SIM for a mobile in a mobile system in which an IMSI for a user is stored in that the SIM is designed to generate a request signal which request and new identity disclosed in column 5 lines 1-19.

Response to Arguments

2. Applicant's arguments filed 6-19-03 have been fully considered but they are not persuasive.

The examiner did not enter the proposed examiners amendment discussed on 6-23-03 because the claim language discussed does not put *claim 14* in condition for allowance.

Application/Control Number: 09/485,679

Art Unit: 2681

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sheila B. Smith whose telephone number is (703)305-0104. The examiner can normally be reached on Monday-Thursday 6:00 am - 3:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dwayne Bost can be reached on 703-305-4778. The fax phone numbers for the organization where this application or proceeding is assigned are (703)872-9314 for regular communications and (703)308-6296 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)305-9700.

S. Smith 5. W June 24, 2003
